

Student Business Concept Competition

in conjunction with the
VT KnowledgeWorks Entrepreneurship Summit
Skelton Conference Center at Virginia Tech, Blacksburg, VA
April 7-8, 2009

Presentation Guidelines

Presentation will be 10-15 minutes long followed by a 10-minute question and answer session. Power Point slide format is to be used for the presentation; slides need to be readable to an audience of at least 100 people.

Presentation is to focus on:

- Customer need being met by product or service
- Size of market opportunity
- Competitive position/advantage of product or service
- Business model and value proposition
- Financial projections and funding needs/sources

PowerPoint Presentation: limit to about 10-12 slides:

Slide	Content
1	Company name & mission; team member names; date
2	Problem being solved: customer need being addressed, target market, market size; amplify on specific customer needs and bases for them
3	Company's response to customer need: products being proposed and their benefits, how the product/service fits in the value chain
4	Competitive advantage: describe, how is intellectual property protected
5	Competitive environment: competitors and their products' relationship to the company's offerings, how the company is changing the environment/ground rules/goal posts in the industry
6	Business model: how the product/service will be sold, how value is created and captured by the company
7	Key team members: their backgrounds/areas of expertise, missing competencies and plan to complete the team
8	Market entry strategy and plan: growth of revenues over initial five years
9 & 10	Financial summary: income statement & cash flow statement; balance sheet if appropriate
11	Funding needed: how much and its timeline, comparison of need with achievement of company successes
12	Summary of business opportunity presented by company: size of opportunity, why the company will succeed, expected company financial return on investment

Things to Remember while Preparing Business Concept Plan Presentation

- *Present a compelling argument for why this is a great opportunity and why it will support a viable business*
- *Focus on why you are different, why you will succeed*
- *Think in terms of graphs, pictures, tables, things people can easily understand*

- Clearly state your company mission: be concise, you have less than 30 seconds to hook the audience/investor
- State the problem you are focusing on within the target market(s)
 - How big is the problem and the resulting market
 - What is the total addressable market
 - Give examples of specific customer problems your company's products will address
- How is your product or service going to address **the identified problem** in the target market and problems your product or service creates for the customer
 - Describe the product and its benefits
 - Describe how you will address privacy, required changes in customer attitudes, distribution monopolies, or whatever
 - How does your product fit into the market/industry: what part of the total industry are you addressing, do you require partnerships with others serving the customer
- Do you have a technology edge; if so, describe it
- What is your competitive advantage in the marketplace
 - List the top 3 competitors
 - Highlight your advantages and why they will win the customer
 - Are you changing the ground rules or goal posts in the industry; if so, describe how
- If not already stated, how will you win in the market
- How will you sell the product: distribution channels
 - How will you use the existing industry infrastructure
- How will you make money
 - What is the customer willing to pay and what does it cost to provide the product or service
 - Show the gross profit or whatever shows that this is a viable business
- How will you get there: initial milestones
 - What is the market introduction strategy
 - How much money do you need to get there
 - What are the potential sources for the required funding
